

DUPLEX

the wait is over!

- ✓ Have you ever needed **two wall outlets** instead of just one?
- ✓ Are you looking for some way to "multiply the outlets" but in a simple manner and keeping the same excellent **BlackNoise** quality?
- ✓ Do you need **THREE** outlets on your **BlackNoise** instead of just two?
- ✓ In addition to all this, would you like to being able to **easily rotate the DUPLEX** so not to cover up the nearby outlets?
- ✓ Would you maybe like to have also the plug contacts (including the earth pin) made in **pure copper and silver for the optimum energy transfer and without any quality loss?**

- ✓ Do you hate socket splitters because you have **never found** a good quality one?
- ✓ Would you like to effectively add **one more outlet** to your **MiniBlack?**

- ✓ Are you looking for an adaptor to enable you to use your **US cables** with your **Schuko sockets** but can't find around anything worth it?
- ✓ Or maybe what you are looking for is an adaptor that enables you to have **TWO** US outlets plus one multistandard on the same **BlackNoise?**

The **DUPLEX** is sold together with a screwdriver that it's needed to rotate it in vertical or horizontal position. The enclosed instructions clearly reports the procedure. A couple of adhesive rubber feet are also included with the kit to be used jointly with the **MiniBlack**.

Transform a **MiniBlack** in a filtered, all US mains distributor, you can with the **DUPLEX!**

The **DUPLEX** is able to increase and to diversify the outlets of your current **BlackNoise** filter!

The **DUPLEX** has the unique ability to be able to rotate 90° degrees around its Schuko plug: in this way no matter how your wall sockets are placed, they are always fully available!

The **DUPLEX** is offered with two multistandard sockets (that accepts Schuko, Italian 10A and 16A and US two poles plugs) or with two US Hospital Grade ones.
